TyrrellTech is committed to supporting our customers, helping them grow their business and make money, unlike other sign supply companies that sell signs and sign blanks. These companies take business away from sign companies. Why would anyone purchase anything from a competitor who takes money directly out of your pocket? Work with TyrrellTech & watch your business thrive.

Alternatives to Static Cling

Cling Replacement Solution:

- 1. Print your graphic on a standard film
(see display films, page 18)**
- 2. Mount a clear adhesive to the printed face
(see options below)**
- 3. Stick it to the inside of the window for a flawless, visible
window graphic that will serve as great marketing collateral!**

Onyx RIP Software

Onyx allows large format printer users to control the profiles and details for prints. Onyx is capable of running printers from makers such as Roland, ColorSpan, Encad, HP, Epson, Canon, Mimaki, Mutoh, Graphtec, Canon, DGI, Seiko and more.

Onyx Thrive includes access to the Thrive Production Manager browser-based user interface enables workflow control from anywhere. Users can submit, control and monitor jobs from any Macintosh®, Windows® PC, tablet or mobile device, optimizing both operator and output device productivity since users will no longer need to move among several independent RIP workstations.

Onyx Thrive runs on flexible network licensing technology and offers the unique ability to add RIP power independent of adding devices, ensuring printers and cutters are fed at maximum capacity. Distributable workflow modules streamline production and reduce turnaround time.
