ENGRAVER CORNER

Gravotech LS100EX CO2 Laser Engraver

Check out Gravotech's LS100EX CO2 laser machine- a medium-sized machine for engraving and cutting. Its engraving area matches the size of ¼ sheet, making it the ideal sign making machine. The gantry laser technology applicable for small industrial series production.

With a working area of 12" x 24" exactly matching ¼ sheet size, the LS100EX is a signage engraving and laser cutter above the rest. Be it plastic, wood, metal, or glass, any signage material can be engraved and cut. This can be your favorite sign making machine, with a large range of consumables available with up to 2 color layers, for a contrasted and professional result.

The workspace size combined with a gantry laser technology makes the LS100 EX the perfect CO2 laser machine for small production series. Load your items or parts to be engraved, and create your engraving job with the Gravostyle software. Several industrial functions are available, such as the Matrix mode or automatic date stamp. Let your laser engraver do the hard work!

Call 888-865-0300 or email info@tyrrelltech.com for more info.

VLS3.60ES- Innovative Desktop from ULS

UNIVERSAL
LASER SYSTEMS

The VLS 3.60ES from Universal Laser Systems is a compact desktop laser system designed for multi-user environments. It has a 24" x 12" material processing area equipped with a door-mounted camera. This is a great machine for starting and continuing with a laser engraving aspect to your business. Expand your creative side!

TyrrellTech has represented the Universal Laser Systems Line for more than 15 years. We have watched many customization and personalization businesses grow. The world loves customization and these laser engravers give an awesome polished look to wood, tumblers, acrylic, metal marking and more.

Have a need that might require a laser engraver? Reach out to our laser team and tell them what you need to make. They can combine the right machine bed size and laser tube wattage to get the jobs that you need to do done!

Call 888-865-0300 or email info@tyrrelltech.com to learn more!

Financing Promotion from Geneva Capital

Sometimes it is time to buy a new piece of production equipment but the money is not sitting in the bank for you to do it right away. A lease purchase is a great way to get the machine, increase your business and you income, and spread out the cost of the purchase.

What's best- you can claim a machine bought and financed this year in full if you want or need to take advantage of a Tax Law 179 benefit for your business- we are here to help you understand that better.

Check out this promo from one of our lending partners, Geneva Capital. What a great way to start producing and making money right away! You can apply easily online and get a fast answer!

Call 888-865-0300 or email info@tyrrelltech.com to learn more.

MIMAKI UV MACHINE HIGHLIGHTS

4x4 Flatbed For Big Printing in Small Spaces!

The Mimaki JFX200-1213 EX medium-format UV-LED flatbed printer is engineered for small to medium volume production, offering wide-format printing capabilities in a compact footprint. It finally meets the needs of print service providers and in-house print shops with limited space, delivering high-quality outputs across various applications, including textured surfaces, ADA-compliant signage, and jig workflows.

Mimaki™

This machine's compact medium format design enables businesses to expand their production capabilities without requiring the space of a traditional wide-format printer. This machine can be outfitted with a range of inks for printing to a wide range of rigid and flexible surfaces. It is also capable of producing 2.5D textures and ADA signage to suit some custom/ niche needs.

Now through December 29, save \$3,500 in Instant Rebate on the purchase of the 4'x4' JFX200-1213EX and an ionizer for free-help tackle static that can build up on the surface of certain print media and eliminate the chaos it can cause.

Call 888-865-0300 or email info@tyrrelltech.com to learn more.

Savings on Mimaki Direct to Film Printers

The TxF Direct to Film printer series is packed with Mimaki technology to overcome the common issues of current DTF printers in the market. Using genuine Mimaki heat transfer pigment ink, it assures skin friendly printing at the highest image quality. This unique combination ensures a highly reliable and stable DTF print workflow backed by Mimaki's industry best service and support. Now through December 29, earn a \$2,000 Instant Rebate on all Mimaki DTF Printers.
