2815 Directors Row, Suite 600, Orlando, FL

RSVP on our google form or to info@tyrrelltech.com

An Attitude of Gratitude, From Us to You!

The Holidays are a great time to gather, to be grateful... and to be busier than you ever imagined, trying to get it all done. So we have a simple recipe for success.

1. Deep breaths = success
2. Come spend Grinchmas with your TyrrellTech friends.
3. Pick out some cool new machines for under your tree.
4. Reinvest in your business, let us make the magic happen, and report back for a profitable and productive 2026.

See... when we have a plan, everything is possible! Come join us for Grinchmas on December 10 in all offices- and thank you, from our work family to yours, for your trust and your business. Here's to doing it again in 2026!

Tax Law 179

REINVEST THIS YEAR'S PROFIT INTO YOUR BUSINESS
CALL TYRRELLTECH TO LEARN MORE!

KNOCK DOWN THAT TAX BILL BY PUTTING THE MONEY INTO A NEW PIECE OF EQUIPMENT THAT WILL MAKE YOU MONEY IN 2026

Spend \$25,000 on a printer purchase and that is \$25,000 less profit you will be taxed on at the end of the year- a \$25,000 order saves you over \$8,000 on that tax check!

888-865-0300 info@tyrrelltech.com SPEND WISELY

If your business managed to turn a profit in this year to top all tough years, CONGRATULATIONS. And, to keep you from having to send money to the IRS for that profit- if you reinvest it in your business, you can spend that money from your 'earnings' and prevent having to pay tax on it as income for the year. Call us to learn more- reinvesting in your business to help it grow is a no brainer!

"Maybe Christmas, he thought, doesn't come from a store. Maybe Christmas... perhaps... means a little bit more!"

-Dr. Seuss, Author

TyrrellTech's Corny Joke of the Month-

What's every elf's favorite type of music?

ENGRAVER CORNER

Gravotech LS900 CO2 Laser Engraver

TyrrellTech has always tried to have a range of laser engraver offerings that work for everyone. We began with the Universal Laser Brand, and have added both Gravotech laser engravers and, more recently, Com-Marker UV lasers. The idea is that we have a machine of every size and laser strength to suit each customer's needs.

The addition of the Gravotech line was meant to help fill in some of those very standard, utilitarian needs with something that is easy to run, use and maintain.

The Gravotech LS900 industrial laser engraver comes in CO2, Fiber, or Edge (dual sources). They're ideal if looking for a fast laser engraver or laser cutter. This machine allows you not only to work with standard semi full sheets 24" x 24" but also take advantage of the 9.84 in height z-axis making bulky objects easier than ever. The working space becomes even easier thanks to the pass-through, the smallest machine on the market to feature this, making this ideal for both individual projects and even small batch work, with most objects able to fit, it becomes a question not of can I mark it, but when I mark it.

Taking advantage of Gravotech's history with industrial laser engravers, they bring that technology to you with the LS900 CO2 laser engraver up to 4m/sec. This makes this machine a major asset to improve your productivity. With a choice between step motors or brushless motor, you can find a tailored solution for your projects and needs, keeping productivity at the forefront of your workflow. The decision, unique for laser stations, let you prioritize depending on your budget and speed requirements.

Mark and cut anything with your choice of laser source, the Fiber laser machine for metals, CO2 laser engraver for organics and minerals, or Edge, combining a Fiber laser machine and CO2 laser engraver into one. Use a UV printer to add colors to your creations then let the LS900 cut them automatically thanks to the Print & Cut feature, which comes as standard, to create colorful signage and personalized gifts. This large laser engraver is great for acrylic laser cutting, and is widely used as a sign engraver, plastic cutter, and plastic engraver.

Call 888-865-0300 or email info@tyrrelltech.com for more info.

4x4 Flatbed For Big Printing in Small Spaces!

The Mimaki JFX200-1213 EX medium-format UV-LED flatbed printer is engineered for small to medium volume production, offering wide-format printing capabilities in a compact footprint. It finally meets the needs of print service providers and in-house print shops with limited space, delivering high-quality outputs across various applications, including textured surfaces, ADA-compliant signage, and jig workflows.

This machine's compact medium format design enables businesses to expand their production capabilities without requiring the space of a traditional wide-format printer. This machine can be outfitted with a range of inks for printing to a wide range of rigid and flexible surfaces. It is also capable of producing 2.5D textures and ADA signage to suit some custom/ niche needs.

Now through December 29, save \$3,500 in Instant Rebate on the purchase of the 4'x4' JFX200-1213EX and an ionizer for free-help tackle static that can build up on the surface of certain print media and eliminate the chaos it can cause.
