

The TyrrellTech Times

Volume 165

April 2026

Find us at ISA Booth 940!

The ISA show in Orlando, Florida kicks off this month. It is where industry professionals go to see what's new. Tyrrell-Tech will be there in booth 940, highlighting some of our favorite brands. Check out our Roland and Mimaki printers, Graphtec cutter, and Laser Engravers from Universal Laser Systems and Gravotech. We have lots to share, and we can't wait to share it with you!

Roland TrueVIS VG4's Announced!

Roland has announced their epic new TrueVis VG4 Series – a new generation of large-format eco-solvent printer/cutters engineered to deliver the highest levels of color performance, cost efficiency, and print-and-cut automation in their class. Both the 54" VG4-540 and 64" VG4-640 take full advantage of Roland's wide-gamut TR3 inks, which now include new Red and Light Black, as well as Orange, Green, and CMYK options, to deliver eye-catching prints with unsurpassed vibrancy, color accuracy, and detail.

These printers produce stunning "TrueVis quality" output at real-world production speeds that match or exceed competitive devices. The VG4 Series inkjets are cost-efficient and incorporate innovative new features that streamline workflow, optimize productivity, and increase ease of use.

The VG4's tout print speeds of up to 255 square feet per hour allow for faster turnaround and higher shop throughput without sacrificing print quality. They have integrated print/cut and new "smart" take-up unit streamline production and support unattended overnight printing.

Mimaki's New Hybrid (Roll/Rigid) UV Printer

Introducing the new Mimaki UJ330H-160 — the most advanced Mimaki hybrid printer ever.

Engineered to expand your possibilities, it seamlessly handles an exceptional range of roll and rigid media, giving you the freedom to take on more jobs with confidence.

Powered by Mimaki's proven 330 series print engine, the UJ330H-160 delivers the perfect balance of speed and precision. Its dual printheads and 6 color configuration offer flexible setups, including - x2 CMYK or CMYK + Clear + White, or CMYK + Light Cyan + Light Magenta + White.

Designed for versatility, the printer features a generous 2" head clearance and an innovative vacuum transport belt system that eliminates pinch rollers - minimizing marks and enabling smooth, accurate printing on even the thinnest media.

With resolutions up to 1200 x 1800 dpi and Mimaki's complete suite of core technologies - NCU, NRS, DAS2, VDT, MWDT, MAPS4, and Mimaki PICT—you gain smarter automation, consistent performance, and the power to monitor everything from ink usage to production status right from your phone.

Capable of 5 layer and 2.5D texture printing, the UJ330H-160 delivers a truly robust, intuitive hybrid experience. It's the all in one printing solution built to elevate quality, expand capability, and keep your business ahead of the competition.

ENGRAVER CORNER

Gravotech LS900 CO2 Laser Engraver

TyrrellTech has always tried to have a range of laser engraver offerings that work for everyone. We began with the Universal Laser Brand, and have added both Gravotech laser engravers and, more recently, Com-Marker UV lasers. The idea is that we have a machine of every size and laser strength to suit each customer's needs.

The addition of the Gravotech line was meant to help fill in some of those very standard, utilitarian needs with something that is easy to run, use and maintain.

The Gravotech LS900 industrial laser engraver comes in CO2, Fiber, or Edge (dual sources). They're ideal if looking for a fast laser engraver or laser cutter. This machine allows you not only to work with standard semi full sheets 24" x 24" but also take advantage of the 9.84 in height z-axis making bulky objects easier than ever. The working space becomes even easier thanks to the pass-through, the smallest machine on the market to feature this, making this ideal for both individual projects and even small batch work, with most objects able to fit, it becomes a question not of can I mark it, but when I mark it.

Mark and cut anything with your choice of laser source, the Fiber laser machine for metals, CO2 laser engraver for organics and minerals, or Edge, combining a Fiber laser machine and CO2 laser engraver into one. Use a UV printer to add colors to your creations then let the LS900 cut them automatically thanks to the Print & Cut feature, which comes as standard, to create colorful signage and personalized gifts. This large laser engraver is great for acrylic laser cutting, and is widely used as a sign engraver, plastic cutter, and plastic engraver.

Call 888-865-0300 or email info@tyrrelltech.com for more info.

Universal Laser Systems Solutions

Universal Laser Systems has unique systems and methods for laser cutting and processing that deliver flexibility, performance and results that surpass conventional laser material processing tools -- redefining what's possible.

Overcome your most demanding and complex applications. ULS helps companies evaluate the feasibility of laser technology. Whether it's characterizing materials, identifying or refining laser processing parameters for maximum quality and efficiency, or assisting with seamless integration into your workflow—we help solve challenges at every stage.

ULS configures turnkey solutions that meet your material processing needs, deliver optimal results, and evolve with your business. Discover our process and products to build your ideal laser system.

Ask about our ISA Show Specials on the following combinations:

- * VLS3.60DT, 60 Watt Laser, Cutting Table, Air Assist Cone
Save \$6,000 off of list price!
- * VLS4.75, 60 Watt Laser, Cutting Table, Air Assist Cone
Save \$7,600 off of list price!
- * VLS6.75, 60 Watt Laser, Cutting Table, Air Assist Cone
Save \$8,400 off of list price!
- * PLS6.150, 2 x 60 Watt Lasers (120 Watts), Cutting Table, Air Assist
Save \$16,200 off of list price!

Maybe one of these popular configurations can be the next addition to your production space, and you can save some money on the purchase while reinvesting in your business! Win- win- win!

ROLAND MACHINE PROMOS

XP Print & XG Print/Cut Savings

Now through June 26, 2026, you can get unsurpassed TrueVIS color, productivity, reliability, and ease of use at an unbelievable price! Save \$3,000 on a new XG-640 printer/cutter or \$2,000 on a new XP-640 printer. Plus, get a free dryer with your purchase.

This promotion from Roland is pretty out of this world. These production machines are less than their predecessors were ten years ago. In a world where nothing is less... these are. And they are awesome printers. We have many installs up and down the East Coast of happy customers. Roland innovation and ease of use at its best!

Take advantage of this amazing offer while it lasts!

Roland UV Print/Cut Savings

TrueVIS is synonymous with industry-leading print-and-cut machines. Enhance your capabilities with the added power of premium-quality UV-LED printing technology and specialty effects capabilities to offer your customers even more products with the LG Series!

The TrueVIS LG series combines the flexibility of print and cut, the benefits of UV-LED printing and TrueVIS heritage, adding a new dimension to graphics printing.

Using the latest ECO-UV EUV5 inks for exceptional and premium-value printing, Roland goes beyond CMYK to give you even more options and flexibility.

LG Printer/Cutters can rocket you into a world of:

- * High-definition output
- * Specialty printing for textures and effects
- * Broad media compatibility
- * High-density white ink
- * Fast-drying prints for quick turnaround and finishing

From now until June 26, 2026, save \$2,100 on an LG-300 30" UV printer/cutter and save \$3,400 on an LG-640 64" UV printer/cutter.

Call 888-865-0300 or email info@tyrrelltech.com to learn more.

MIMAKI HEADLINES

Savings on Mimaki Direct to Film Printers

The TxF Direct to Film printer series is packed with Mimaki technology to overcome the common issues of current DTF printers in the market. Using genuine Mimaki heat transfer pigment ink, it assures skin friendly printing at the highest image quality. This unique combination ensures a highly reliable and stable DTF print workflow backed by Mimaki's industry best service and support. Now through June 28, 2026, earn an Instant Rebate on all Mimaki DTF Printers.

TXF150-75- \$11,995 MSRP, \$1,500 Instant rebate

TXF300-75- \$15,995 MSRP, \$3,500 Instant rebate

TXF300-1600- \$20,995 MSRP, \$2,000 Instant rebate

4x4 Flatbed For Big Printing in Small Spaces!

The Mimaki JFX200-1213 EX medium-format UV-LED flatbed printer is engineered for small to medium volume production, offering wide-format printing capabilities in a compact footprint. It finally meets the needs of print service providers and in-house print shops with limited space, delivering high-quality outputs across various applications, including textured surfaces, ADA-compliant signage, and jig workflows.

This machine's compact medium format enables businesses to expand their production capabilities without requiring the space of a traditional wide-format printer.

This machine can be outfitted with a range of inks for printing to a wide range of rigid and flexible surfaces. It is also capable of producing 2.5D textures and ADA signage to suit some custom/niche needs.

Call 888-865-0300 or email info@tyrrelltech.com to learn more.

TYRRELLTECH TRAINING

Sign up for the classes below- email info@tyrrelltech.com to RSVP so that we can be ready to host you- see you in the classroom!

TyrrellTech Digital Printing Systems Training Tuesdays

Roland Versaworks Basics

Take a refresher course in Versaworks; Getting started, selecting profiles and setting up your print job.
Tuesday, April 21, 10 am - 12 pm

Apparel/Heat Transfer & Other Digital Media

Learn more about both the CAD cut options for heat transfer materials and the possibilities of print & cut solutions in both apparel and beyond- explore the range of media options!
Tuesday, April 28, 10 am - 12 pm

Adobe Illustrator 101

Adobe Illustrator is a powerful tool in this industry. Spend time learning some basic navigation of the software to give you an introduction to Adobe.
Tuesday, May 5, 10 am - 12 pm

Color Management & Printer Maintenance

How does the computer make color, how is it interpreted, and what happens between file creation and print to manage color expectations?
Tuesday, May 12, 10 am - 12 pm

Flexi Sign Basics

Learn more about the sign industry's most intuitive and effective sign design software to increase productivity and efficiency in your print shop. (this class is offered virtually)
Tuesday, May 19, 10:00 am - 12 pm

IN PERSON & VIRTUAL

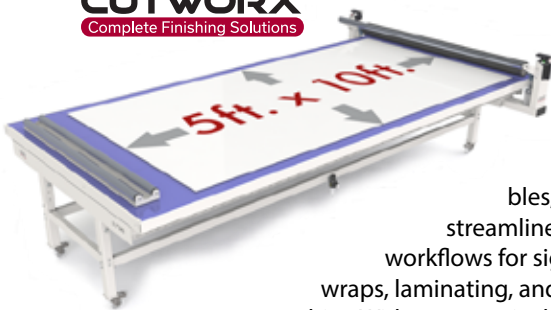

MUST RSVP

FREE classes

You MUST RSVP - Seats are Limited! 888-865-0300 or info@tyrrelltech.com

Training currently at these locations:

9045 Maier Road, Suite A, Laurel, MD 20723
200 Route 31 North, Suite 109, Flemington, NJ 08822
2400 W. Copans Road, Unit 8, Pompano Beach, FL 33069
2815 Directors Row, Suite 600, Orlando, FL 32809

CWT Worktools offers high performance flatbed applicators and work tables, designed to streamline production workflows for signage, vehicle wraps, laminating, and large-format graphics. With ergonomic designs, precision engineering, and automation features, CWT

Worktables enhance efficiency, accuracy, and profitability for print shops and graphic professionals. **CWT Premium Series:** Our most refined flatbed applicator, ideal for high-volume production. The CWT Premium Series is equipped with advanced features such as electronic height adjustment, an illuminated worktable, and roll holders, making it perfect for extended, uninterrupted shifts. **CWT Classic Series:** A balanced and reliable choice, the CWT Classic (formerly "Regular") Series is a favorite among sign makers and digital printers. It offers essential features with a wider working width, making it suitable for a variety of standard substrates and media widths. Perfect for everyday challenges and diverse applications. **CWT Advantage Series:** Compact yet robust, the CWT Advantage Series is designed for smaller spaces and entry-level applications. It provides exceptional value for money, offering affordable access to flatbed technology without compromising on quality. This makes it ideal for producing smaller signs, posters, and road signs
