Sign Up To Join in the Fun!

Sun's out, fun's out...

Join TyrrellTech in our Maryland office on Tuesday June 9 for our annual Spring Open House.

This isn't just your regular trade show. We will have vendors with samples and demos, but we will also have FREE training sessions, FREE lunch, raffles to win including a camera and TyrrellTech dollars, and we will have a fun filled day with your wacky TyrrellTech crew. There's nothing better.

Sign up on our Google form today from the QR code in the flyer- we can't wait to host you for this illuminating experience.

WELCOME NEW TYRRELLTECH-ERS!

Join us with a big "WELCOME ABOARD" to two new TyrrellTech Team Members!

Mike Pikowski joins the TyrrellTech New Jersey team as our Mimaki sales and service champion. He comes to us with experience in printer repair and ready to take on all things Mimaki- you can reach him at mike@tyrrelltech.com or direct at 908-455-4366.

Scott Lopez, joins the TyrrellTech Orlando team as our Laser Engraver sales and service champion. He comes with experience in the laser engraving world and is ready to support our laser customers. Scott can be reached at scott@tyrrelltech.com or direct at 321-243-0774.

XP Print & XG Print/Cut Savings

Now through June 26, 2026, you can get unsurpassed TrueVIS color, productivity, reliability, and ease of use at an unbelievable price! Save \$3,000 on a new Roland XG-640 printer/cutter or \$2,000 on a new Roland XP-640 printer. Plus, get a free dryer with your purchase.

Both of these printers tout top print speeds and a wide color gamut, introducing ranges with orange, green, red and the light colors to make all prints the best they can be. Roland has always led the way with great machines backed by a great company, and they are here to do it again with these two models. You can check these out in one of our four showrooms.

This promotion from Roland is pretty illuminating. These production machines are less than their predecessors were ten years ago. In a world where nothing is less... these are. And they are awesome printers. We have many installs up and down the East Coast of happy customers. Roland innovation and ease of use at its best!

Take advantage of this amazing offer while it lasts!

**** PRICE CHANGES COMING JUNE 1! ****

TyrrellTech has been informed of price increases from multiple vendors that will go into effect June 1... stay tuned, and we will communicate them as we receive orders. Prices on many items will be going up on June 1, 2026.

"Keep your face always toward the sunshine—and shadows will fall behind you." **-Walt Whitman, poet**

TyrrellTech's Corny Joke of the Month (on theme...)-

How does the ocean say hello to the sun?

ENGRAVER CORNER

Gravotech LS100 CO2 Laser Engraver

Turn to TyrrellTech for your Laser Engraver needs. We have worked to partner with solid brands with a nice range of solutions- like this engraver from Gravotech.

The LS100 is enclosed, easy to operate, and is a compact laser engraver. This compact laser engraving machine is suitable for laser cutting and engraving. This laser cutter is built to last.

LS100

LASER TABLE

- **Marking area:** 18.1 in x 12 in
- **Materials:** Plastics, wood, glass and other organic materials and painted surfaces
- **Applications:** Personalization, creative and signage

ENCLOSED CO2 LASER ENGRAVING MACHINE SUITABLE FOR BEGINNERS AND EXPERTS IN SIGNAGE

LS100 is the only CO2 laser engraving machine and laser cutter on the market made of one-piece aluminum chassis. It includes CAD/CAM software and an RF laser source.

OUTSTANDING VALUE FOR A LASER MARKING MACHINE

The LS100 is a small laser engraver that is perfect for in store usage and customers enjoy seeing their purchases engraved while they wait. This laser marker can be used for many of your applications.

SIMPLE WORKFLOW, MINIMAL OPERATOR TRAINING REQUIRED

Automatic touch sensing, embedded control dashboard, and backlit engraving table with a wide front-loading door are just a few features to make your job easier! Low operational noise allows you to comfortably use this engraving machine in retail stores, small shops, and residential areas.

Call 888-865-0300 or email info@tyrrelltech.com for more info.

Universal Laser Systems VLS3.60ES

The new VLS 3.60ES is a compact desktop laser system designed for multi-user environments such as educational settings, laboratories, and shared spaces within businesses. For operators, it offers a rich set of features and capabilities that enhance productivity, operational efficiency, usability, and safety. For administrators, it provides access control and support capabilities to effectively monitor and manage system use and performance.

The VLS 3.60ES laser system features a 24 x 12-inch material processing area equipped with an integrated camera vision system to aid users in precisely aligning design files with materials placed on the laser processing support surface.

The desktop is driven by the user-friendly, yet powerful control software, Laser System Manager, with capabilities beneficial for beginning and advanced users as well as administrators such as:

With advanced diagnostic, reporting and troubleshooting tools, errors can be rapidly diagnosed and resolved for more uptime. Features include Enhanced Error Detection and Diagnostics and Remote Troubleshooting.

Additionally, its robust design and set of safety features help minimize potential hazards for safe laser processing. Safety features include laminated safety glass, redundant safety interlocks, Overtemperature Detection Alarm, Emergency Stop (E-Stop) Push Button, and Enhanced Fault Detection to monitor the status of the laser source and any accessories installed. For added protection, an optional Fire Suppression Assistance Module is also available.

Call 888-865-0300 or email info@tyrrelltech.com to learn more!

Roland TrueVIS VG4's!

Roland has announced their epic new TrueVis VG4 Series – a new generation of large-format eco-solvent printer/cutters engineered to deliver the highest levels of color performance, cost efficiency, and print-and-cut automation in their class. Both the 54" VG4-540 and 64" VG4-640 take full advantage of Roland's wide-gamut TR3 inks, which now include new Red and Light Black, as well as Orange, Green, and CMYK options, to deliver eye-catching prints with unsurpassed vibrancy, color accuracy, and detail.

These printers produce stunning "TrueVis quality" output at real-world production speeds that match or exceed competitive devices. The VG4 Series inkjets are cost-efficient and incorporate innovative new features that streamline workflow, optimize productivity, and increase ease of use.

The VG4's tout print speeds of up to 255 square feet per hour allow for faster turnaround and higher shop throughput without sacrificing print quality. They have integrated print/cut and new "smart" take-up unit streamline production and support unattended overnight printing.

Roland UV Print/Cut Savings

TrueVIS is synonymous with industry-leading print-and-cut machines. Enhance your capabilities with the added power of premium-quality UV-LED

printing technology and specialty effects capabilities to offer your customers even more products with the LG Series!

The TrueVIS LG series combines the flexibility of print and cut, the benefits of UV-LED printing and TrueVIS heritage, adding a new dimension to graphics printing.

Using the latest ECO-UV EUV5 inks for exceptional and premium-value printing, Roland goes beyond CMYK to give you even more options and flexibility.

LG Printer/Cutters can rocket you into a world of:

- * High-definition output
- * Specialty printing for textures and effects
- * Broad media compatibility
- * High-density white ink
- * Fast-drying prints for quick turnaround and finishing

From now until June 26, 2026, save \$2,100 on an LG-300 30" UV printer/cutter and save \$3,400 on an LG-640 64" UV printer/cutter.

Call 888-865-0300 or email info@tyrrelltech.com to learn more.

Mimaki's New Hybrid (Roll/Rigid) UV Printer

Introducing the new Mimaki UJ330H-160 — the most advanced Mimaki hybrid printer ever.

Engineered to expand your possibilities, it seamlessly handles an exceptional range of roll and rigid media, giving you the freedom to take on more jobs with confidence.

Powered by Mimaki's proven 330 series print engine, the UJ330H-160 delivers the perfect balance of speed and precision. Its dual printheads and 6 color configuration offer flexible setups, including - x2 CMYK or CMYK + Clear + White, or CMYK + Light Cyan + Light Magenta + White.

Designed for versatility, the printer features a generous 2" head clearance and an innovative vacuum transport belt system that eliminates pinch rollers - minimizing marks and enabling smooth, accurate printing on even the thinnest media.

With resolutions up to 1200 x 1800 dpi and Mimaki's complete suite of core technologies - NCU, NRS, DAS2, VDT, MWDT, MAPS4, and Mimaki PICT—you gain smarter automation, consistent performance, and the power to monitor everything from ink usage to production status right from your phone.

Capable of 5 layer and 2.5D texture printing, the UJ330H-160 delivers a truly robust, intuitive hybrid experience. It's the all in one printing solution built to elevate quality, expand capability, and keep your business ahead of the competition.

CWT Worktools offers high performance flatbed applicators and work tables, designed to streamline production workflows for signage, vehicle wraps, laminating, and large-format graphics. With ergonomic designs, precision engineering, and automation features, CWT

Worktables enhance efficiency, accuracy, and profitability for print shops and graphic professionals. **CWT Premium Series:** Our most refined flatbed applicator, ideal for high-volume production. The CWT Premium Series is equipped with advanced features such as electronic height adjustment, an illuminated worktable, and roll holders, making it perfect for extended, uninterrupted shifts. **CWT Classic Series:** A balanced and reliable choice, the CWT Classic (formerly "Regular") Series is a favorite among sign makers and digital printers. It offers essential features with a wider working width, making it suitable for a variety of standard substrates and media widths. Perfect for everyday challenges and diverse applications. **CWT Advantage Series:** Compact yet robust, the CWT Advantage Series is designed for smaller spaces and entry-level applications. It provides exceptional value for money, offering affordable access to flatbed technology without compromising on quality. This makes it ideal for producing smaller signs, posters, and road signs

HOT DEAL ON A GREAT LASER
